Brief Explanation:

Students who show that their documented disabilities affect participation in the exams are eligible to take those exams with accommodations. Typical accommodations include Braille and large-print exams, extended time, use of a computer for essays, and extra breaks; however, these are not the only accommodations available. The testing organization must approve all accommodation requests for every student – even those who receive accommodations at school. Use of accommodations without approval will result in cancellation of test scores. The approval process can take up to seven weeks. Sites may suggest district-identified testing centers to service requests for atypical accommodations.

Each school site must designate a test coordinator in order to:

- Submit requests for organization-approved accommodations
- Check the status of requests
- Review decision notifications
- Request reconsideration of requests that were not approved initially, if applicable

The site principal should carefully select the site test coordinator to ensure that work is properly distributed among staff and in accordance with the guidelines of the SDEA contract.

Parents/ guardians requesting additional information for ACT accommodations, specifically, should be directed to [Test Accommodations for Examinees with Disabilities](#). For questions or additional information, contact Lorelei Olsen, lolsen@sandi.net.
